### Did you know...

Even if you qualify for the maximum possible loan for living costs (known as Maintenance Loan), it might not cover all your living costs, so you may need other sources of income while you're studying.

For most students this additional financial support is provided by their parents or partner, but there are several other sources of funding available for students who don't have access to household support. This could be income from part-time employment, savings, university bursaries or scholarships, or Local Authority support such as the Higher Education Bursary.

To learn more about living costs during study, how we calculate your funding and how you can make up the difference, go to

**<https://www.gov.uk/guidance/understanding-student-living-costs>** where you'll also find further links to guidance about budgeting.

If you applied for the maximum amount of Maintenance Loan, the amount we're paying you is based on your household income. We've outlined below the maximum amounts of Maintenance Loan for students in different situations:

- For students living with their parents while studying - £7,904.00
- For students not living with their parents and outside London while studying - £9,436.00
- For students not living with their parents and in London while studying - £12,065.00

Your confirmed student finance amounts relate to the following course details:

**Your current course details:**

University or College: MANCHESTER METROPOLITAN UNIVERSITY

Campus name: MANCHESTER

Course: Software Engineering (FT)
